1. DESCRIPTION OF BUSINESS

Antibe Therapeutics Inc. (the "Company" or "Antibe") was incorporated under the *Business Corporations Act* (Ontario) on May 5, 2009. On June 18, 2013, the Company completed its initial public offering and was listed on the TSX Venture Exchange. On September 15, 2014, the Company began trading in the United States on the OTCQX Exchange. On October 1, 2017, the Company changed trading platforms to the OTCQB Exchange. On November 12, 2020, the Company completed its graduation to the Toronto Stock Exchange ("TSX") and the Company's common shares (the "Common Shares") began trading on the TSX under the symbol "ATE." In connection with the Company's graduation to the TSX, concurrently, the Common Shares were voluntarily delisted from the TSX Venture Exchange. On February 16, 2021, the Company resumed trading on the OTCQX market under the symbol "ATBPF."

The Company originates, develops and out-licenses new pharmaceuticals. Antibe's lead compound, otenaproxesul (previously known as OTENAPROXESUL), combines a moiety that releases hydrogen sulfide with naproxen, an approved, marketed and off-patent, non-steroidal, anti-inflammatory drug. The Company's main objectives are to develop otenaproxesul by satisfying the requirements of the relevant drug regulatory authorities while also satisfying the commercial licensing objectives of prospective global partners. The Company has also established a development plan for its lead compound through to the end of Phase III human clinical studies for regulatory discussion purposes. Additionally, the Company continues to investigate other research projects as well as additional development opportunities.

The Company is also, through its wholly owned subsidiary, Citagenix Inc. ("Citagenix"), a seller of tissue regenerative products servicing the orthopaedic and dental marketplaces. Citagenix's portfolio consists of branded biologics and medical devices that promote bone regeneration. Citagenix operates in Canada through its direct sales force, and in the United States and internationally via a network of distributors (see note 4).

The address of the Company's registered head office and principal place of business is 15 Prince Arthur Avenue, Toronto, Ontario, Canada, M5R 1B2.

The Company was founded with an exclusive intellectual property license from Antibe Holdings Inc. ("Holdings"), a related party, to develop and commercialize the Company's pipeline drugs. The license obligated the Company to pay royalties to Holdings on future revenues derived from this intellectual property. On May 7, 2021, the Board of Directors of Antibe and Holdings agreed to combine the companies in an amalgamation transaction. Under the terms of the agreement, the Company acquired full ownership of Holdings' patent portfolio, eliminating the royalty liability on future revenues (note 3). As of the date of the amalgamation on June 3, 2021, 11.4% of the Company's Common Shares were held by the former shareholders of Holdings.

These unaudited condensed interim consolidated financial statements were authorized for issuance by the Board of Directors on August 12, 2022.

2. BASIS OF PRESENTATION

(a) Statement of compliance –

These unaudited condensed interim consolidated financial statements were prepared using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended March 31, 2022. These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 ("IAS 34"), *Interim Financial Reporting*. Accordingly, these unaudited condensed interim consolidated financial statements do not include all the disclosures required for annual financial statements and should be read in conjunction with the annual consolidated financial statements of the Company for the year ended March 31, 2022, which are available on SEDAR. Several amendments apply for the first time in 2022, but do not have an impact on the unaudited condensed interim consolidated financial statements of the Company. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

2. BASIS OF PRESENTATION *(continued)*

(b) Consolidation –

These unaudited condensed interim consolidated financial statements reflect the accounts of the Company and its wholly owned subsidiary, Citagenix.

The Company operates as two operating segments: Antibe (research and development of new pharmaceuticals) and Citagenix (a seller of tissue regenerative products servicing the orthopaedic and dental marketplaces).

The assets and liabilities of Citagenix are recorded as held for sale as at June 30, 2022 and March 31, 2022. Accordingly, the results of the operations of Citagenix are recorded within income (loss) from discontinued operations in the interim consolidated statements of loss (note 4).

All intercompany balances and transactions have been eliminated on consolidation.

(c) Going concern –

The consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As at June 30, 2022, the Company had working capital of $52,041, incurred a net loss for the three months ended June 30, 2022 of $5,531, had negative cash flows from operations of $4,583 and an accumulated deficit of $116,547.

Until such time as the Company's pharmaceutical products are patented and approved for sale, the Company's liquidity requirements are dependent on its ability to raise additional capital by selling additional equity, from licensing agreements of its lead compound, from proceeds from the exercise of stock options and common share warrants or by obtaining credit facilities. The Company's future capital requirements will depend on many factors, including, but not limited to, the market acceptance of its products and services. No assurance can be given that any such additional funding will be available or that, if available, it can be obtained on terms favourable to the Company.

All of the factors above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern, which assumes the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business. Management's plans to address these issues involve actively seeking capital investment and generating revenue and profit from the commercialization of its products. The Company's ability to continue as a going concern is subject to management's ability to successfully implement this plan. Failure to implement this plan could have a material adverse effect on the Company's financial condition and financial performance.

If the going concern assumption were not appropriate for these unaudited condensed interim consolidated financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported revenue and expenses, and the classifications used in the interim consolidated statements of financial position. The unaudited condensed interim consolidated financial statements do not include adjustments that would be necessary if the going concern assumption were not appropriate.

(d) Business uncertainty –

COVID-19 could further impact the Company's expected timelines, operations and the operations of its third-party suppliers, manufacturers, and Contract Research Organizations as a result of quarantines, facility closures, travel and logistics restrictions and other limitations in connection with the outbreak. The most significant risk posed by the COVID-19 pandemic is that it could also significantly impact the progress and completion of the clinical trials.

2. BASIS OF PRESENTATION *(continued)*

Whatever further impact, if any, the COVID-19 pandemic may have on the Company is unpredictable. The continued spread of COVID-19 nationally and globally could also lead to a deterioration of general economic conditions including a possible national or global recession. While the Company believes the current conditions related to the COVID-19 pandemic to be improving, the situation is dynamic and the impact of COVID-19 on its future results of operations and financial condition cannot be reasonably estimated at this time. The Company continues to evaluate the situation and monitor any impacts or potential impacts to its business.

(e) Use of estimates –

The preparation of these unaudited condensed interim consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, if any, as at the date of the consolidated financial statements, and the reported amounts of expenses during the reporting period. Actual results may vary from the current estimates. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in income in the year in which such adjustments become known. Significant estimates in these unaudited condensed interim consolidated financial statements include the completeness of the accrual for research and clinical trial expenses, and accruals and inputs related to the calculation of stock-based compensation.

(f) Comparative figures –

Citagenix operations were reclassified into discontinued operations in the interim consolidated statements of loss and comprehensive loss, in accordance with IFRS 5, *Non-current Assets held for Sale and Discontinued Operations* (note 4).

3. AMALGAMATION WITH RELATED PARTY

On May 7, 2021, the Company announced that the Boards of Directors of Antibe and Holdings agreed to combine the companies in an amalgamation transaction pursuant to which shareholders of Holdings would receive Common Shares of the Company in exchange for their shares of Holdings. The companies were combined in a three-cornered amalgamation transaction pursuant to which Holdings amalgamated with a newly incorporated subsidiary of the Company. This related party transaction closed on June 3, 2021.

On June 3, 2021, the Company issued an aggregate of 5,873,092 Common Shares for a total consideration of $25,980, to acquire all of the issued and outstanding shares of Holdings, following which Holdings ceased to exist. The amalgamation was accounted for as an acquisition of the underlying assets of Holdings.

The fair value of the assets acquired include $26,051 in intangible assets related to intellectual property, $65 in cash, net of amounts owed to Antibe for advances made in the quarter prior to the amalgamation, $28 in other assets, $130 in income taxes payable and $34 in other current liabilities. The fair value of the intellectual property was determined based on the relief from royalty method. The Company has also capitalized $301 of costs directly related to the amalgamation to the intellectual property acquired. The intellectual property acquired is not yet subject to amortization as it is classified as not yet available for use in accordance with the Company's accounting policies.

At the time of acquisition, these new shares accounted for approximately 11.4% of the ownership of Antibe on a post-transaction basis. Shares issued to Company insiders, who collectively owned approximately 37.5% of the outstanding shares of Holdings, are subject to lock-up agreements, with half of them released 120 days after closing and the balance released 240 days after closing.

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

4. ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

On May 2, 2022, the Company announced the signing of a binding agreement to sell its Citagenix subsidiary. The $6.5 million transaction involves a guaranteed $3.5 million, divided into four equal payments over three years, the first of which will be received at closing. The remaining $3 million is subject to Citagenix achieving sales milestones over the three-year period following closing. The transaction will close no later than 180 days following the signing of this binding agreement. Under the terms of the agreement, Antibe will also receive a $250 deposit from the purchaser to be held in escrow and released at closing.

As at March 31, 2022, the Company met the requirements to record Citagenix as Held for Sale and a Discontinued Operation, in accordance with IFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*. Citagenix is not a fit with the Company's core business of developing new drugs as a clinical stage biotechnology company.

The results of Citagenix for three months ended June 30, 2022 and 2021 are presented below:

	2022	2021
	$	$
Revenue	**3,143**	2,727
Cost of goods sold	**1,805**	1,645
Gross profit	**1,338**	1,082
Expenses	**1,008**	1,007
Income before tax from discontinued operations	**330**	75
Provision for income taxes	**260**	-
Income from discontinued operations	**70**	75

Within the June 30, 2022 interim consolidated statement of financial position, following the classification of Citagenix as a discontinued operation, assets held for sale were as follows:

	June 30, 2022	March 31, 2022
	$	$
Accounts receivable, net of allowances	**1,031**	1,176
Inventory	**2,148**	2,259
Prepaid expenses	**69**	64
Intangible assets	**804**	804
Property and equipment	**305**	305
Deposits	**24**	24
Assets held for sale	**4,381**	4,632

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

4. ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS *(continued)*

The major classes of liabilities classified as held for sale presented within the June 30, 2022 interim consolidated statement of financial position are presented below:

	June 30, 2022	**March 31, 2022**
	$	$
Accounts payable and accrued liabilities	**1,184**	1,753
Deferred income tax	**260**	-
Lease liability	**88**	125
Liabilities associated with assets held for sale	**1,532**	1,878

Cash flow provided by Citagenix operating activities for the three months ended June 30, 2022 was $15 (2021– $105).

5. TERM DEPOSITS

As at June 30, 2022, the Company held investments of $31,640 in five separate Canadian currency GICs having expiry dates of six, nine and twelve months, and one USD currency bond having an expiry date of September 6, 2022. Interest rates range from 1.55% to 4.12%.

6. TRADE AND OTHER RECEIVABLES

	June 30, 2022	March 31, 2022
	$	$
Scientific Research and Experimental Development (“SR&ED”) tax credits receivable	**53**	774
Interest receivable	**-**	3
Harmonized Sales Tax receivable	**391**	344
	444	1,121
Employee advances *[note 7]*	**38**	36
	482	1,157

7. RELATED PARTY TRANSACTIONS

On December 3, 2020, the Company completed the sale of 100% of the shares of its wholly owned subsidiary, BMT Medizintechnik GmbH, for cash consideration of €1 (one euro). Antibe has provided a loan to the purchaser in the amount of $157 (€100 thousand) for working capital purposes. This loan matures on December 3, 2022 and bears interest at an annual rate of 5%, payable quarterly.

Refer to note 3 for information regarding the amalgamation with Antibe Holdings Inc.

Employee cash advances as at June 30, 2022, totalled $38 (March 31, 2022 - $36). Currently, the Company has one officer receiving cash advances.

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

8. SHARE CAPITAL

(a) Stock options –

The following is a summary of all options to purchase Common Shares that are outstanding as at June 30, 2022 and 2021, as well as details on exercise prices and expiry dates:

	Three months ended June 30, 2022		Three months ended June 30, 2021	
	Options	**Weighted average price**	Options	Weighted average price
		$		$
Balance, beginning of the period	**1,274,435**	**2.93**	1,269,035	2.95
Forfeited during the period	**(20,000)**	**3.40**	(2,100)	1.92
Balance, end of the period	**1,254,435**	**2.04**	1,266,935	2.95

Number of options	**Exercise price**	**Expiry date**
	$	
35,000	0.68	August 27, 2022
15,000	5.50	October 21, 2023
66,000	0.68	January 11, 2024
80,500	6.60	March 4, 2024
20,000	0.91	November 15, 2024
36,000	1.40	July 13, 2025
2,000	0.68	March 9, 2026
156,272	1.45	March 9, 2026
10,000	0.68	January 18, 2027
117,323	0.68	March 31, 2027
687,000	2.00	March 31, 2027
15,152	4.95	April 11, 2028
4,188	4.00	May 8, 2028
10,000	2.90	March 11, 2029
1,254,435		

The number of options exercisable as at June 30, 2022, is 1,249,435 and the weighted average exercise price of these options is $2.05.

The total fair value of options not yet recognized as an expense is $3.

(b) Restricted share unit plan –

The following is a summary of all RSUs for Common Shares that are outstanding as at June 30, 2022 and 2021:

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

8. SHARE CAPITAL *(continued)*

	Three months ended June 30, 2022	Three months ended June 30, 2021
	RSUs	RSUs
Balance, beginning of the period	**2,438,445**	3,625,574
Granted during the period	**-**	34,000
Vested during the period	**(20,000)**	(409,320)
Forfeited during the period	**-**	(3,500)
Balance, end of the period	**2,418,445**	3,246,754

The number of RSUs vested and redeemed during the period was 20,000 (2021 – 31,656). The number of RSUs vested and not redeemed during the period was nil (2021 – 377,664). Based on the share price on the date of granting, the total fair value of RSUs not yet recognized as an expense is $3,340.

For the three months ended June 30, 2022, $743 ($740 related to RSUs and $3 related to options) has been included within stock-based compensation in the statements of loss and comprehensive loss.

(c) Common share purchase warrants –

On June 15, 2022, the Company announced that it is extending the expiry date (the “Warrant Extension”) and amending the exercise price (the “Amended Exercise Price”) of 3,117,957 Common Share purchase warrants (“Warrants”) of the Company.

The Warrants, pursuant to the Warrant Extension, will expire on December 31, 2023 and, pursuant to the Amended Exercise Price, be exercisable into a Common Share of the Company at $1.80 per Common Share, as depicted in the table below:

Issue Date	**Number of Warrants**	**Issued Exercise Price**	**Amended Exercise Price**	**Original Expiry Date**	**Amended Expiry Date**	**Effective Date**
June 30, 2020	2,373,401	$6.00	$1.80	June 30, 2022	December 31, 2023	June 30, 2022
August 13, 2019	748,555	$4.00	$1.80	August 13, 2022	December 31, 2023	June 30, 2022

None of the Warrants are held by insiders of the Company.

The Toronto Stock Exchange has approved the Warrant Extension and Amended Exercise Price with an effective date for the amendments of June 30, 2022. These amendments had no impact to the presentation of shareholders' equity, since the Company’s accounting policy is to not record an adjustment to shareholders' equity when the warrants continue to be classified as equity under IAS 32.

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

8. SHARE CAPITAL *(continued)*

The following is a summary of all warrants to purchase Common Shares that are outstanding as at June 30, 2022 and 2021, as well as details on exercise prices and expiry dates:

	Three months ended June 30, 2022		Three months ended June 30, 2021	
	Warrants	**Weighted average price**	Warrants	Weighted average price
		$		$
Balance, beginning of the period	**7,389,166**	**6.31**	7,906,117	6.12
Expired during the period	**(499,810)**	**3.96**	-	-
Balance, end of the period	**6,889,356**	**4.83**	7,906,117	6.12

The weighted average price for the three months ended June 30, 2022 includes the above-mentioned amended exercise price of warrants granted June 30, 2020 and August 13, 2019.

Number of warrants	**Exercise price**	**Expiry date**
	$	
2,373,401	1.80	December 31, 2023
748,555	1.80	December 31, 2023
403,650	6.00	February 24, 2023
3,363,750	7.50	February 24, 2024
6,889,356		

9. LOSS PER SHARE

Basic loss per share is calculated by dividing the net loss attributable to common shareholders by the weighted average number of Common Shares outstanding during the period. All unexercised share options and warrants were excluded from calculating diluted loss per share as the effect of their issuance would be anti-dilutive.

10. RESEARCH AND DEVELOPMENT EXPENSES

(Expressed in thousands of Canadian dollars, except share and per share amounts and where noted)

15. CAPITAL RISK MANAGEMENT

The Company's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to fund the research, development and patent of drugs. To secure the additional capital necessary to pursue these plans, the Company may attempt to raise additional funds through the issuance of equity.

The Company includes the following in its definition of capital: share capital, common share purchase warrants, contributed surplus and accumulated deficit, which, for the three months ended June 30, 2022 total $52,045 (March 31, 2022 – $56,833). The Company is not subject to externally imposed capital requirements.

16. FINANCIAL RISK MANAGEMENT

The Company is exposed to a variety of financial risks by virtue of its activities: credit risk, liquidity risk, foreign currency risk and interest rate risk. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on financial performance.

Risk management is carried out by the officers of the Company as discussed with the Board of Directors. The officers of the Company are charged with the responsibility of establishing controls and procedures to ensure that financial risks are mitigated in accordance with the expectation of the Board of Directors as follows:

Credit risk

The Company's credit risk is primarily attributable to trade and other receivables and the excess of cash held in one financial institution over the deposit insurance by Canadian Deposit Insurance Corporation. The Company, in the normal course of operations, monitors the financial condition of its customers.

The Company establishes an allowance for doubtful accounts that corresponds to the specific credit risk of its customers, historical trends and economic conditions.

Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they become due or can do so only at excessive cost. The Company manages its liquidity risk by forecasting cash flows and anticipated investing and financing activities. Officers of the Company are actively involved in the review and approval of planned expenditures, including actively seeking capital investment and generating revenue and profit from the commercialization of its products (note 2(c)).

As at June 30, 2022 the Company's financial obligations, including applicable interest, are due as follows:

	Less than 1 year	1–2 years	After 2 years	Total
	$	$	$	$
Accounts payable and accrued liabilities	2,279	-	-	2,279
Liabilities directly associated with assets held for sale	1,532	-	-	1,532
	3,811	-	-	3,811

16. FINANCIAL RISK MANAGEMENT *(continued)*

Foreign currency risk

The functional and reporting currency of the Company is the Canadian dollar. The Company undertakes transactions denominated in foreign currencies, including US dollars and euros, and, as such, is exposed to currency risk due to fluctuations in foreign exchange rates against the Canadian dollar. The Company does not use derivative instruments to reduce exposure to foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

17. DEFERRED REVENUE

On February 24, 2017, Antibe entered into an exclusive long-term license and distribution agreement ("License Agreement 1") with Laboratoires Acbel SA ("Acbel") for otenaproxesul in Albania, Algeria, Bulgaria, Greece, Jordan, Romania and Serbia (the "Territory"). Acbel is an affiliated holding company of Galenica SA in Greece. Under the terms of License Agreement 1, Antibe was issued an upfront payment of €800 (CAD$1,142) and is entitled to receive a 5% royalty on net sales of otenaproxesul in the Territory. The upfront revenue is reflected in deferred revenue until the point that Acbel can benefit from the license.

On September 4, 2018, Antibe entered into an exclusive licensing agreement ("License Agreement 2") with Kwangdong Pharmaceutical Co., Ltd ("Kwangdong") for the development and commercialization of otenaproxesul in the Republic of Korea ("Region"). Under the terms of License Agreement 2, Antibe was issued an upfront payment of US$1,000 (CAD$1,316), which is reflected in deferred revenue until the point that Kwangdong can benefit from the license. Under the terms of License Agreement 2, Antibe will be entitled to receive US$9 million in milestone payments. Fees paid to an agent used in obtaining License Agreement 2 have been recorded as deferred contract costs on the interim consolidated statements of financial position in the amount of $236 as at June 30, 2022 (March 31, 2022 - $236).

On February 9, 2021, Antibe entered into an exclusive licensing agreement ("License Agreement 3") with Nuance Pharma ("Nuance") for the development and commercialization of otenaproxesul in the Greater China region. The license provides Nuance with exclusive rights to commercialize otenaproxesul in China, Hong Kong, Macau, and Taiwan (the "Sector"). Under the terms of the agreement, Antibe was issued an upfront payment of US$20 million (CAD$25,231), which is reflected in deferred revenue until the point at which Nuance can benefit from the license. Additionally, Antibe will receive a double-digit royalty on net sales in the Sector and is entitled to receive US$80 million in development and sales milestones. Fees paid to an agent used in obtaining License Agreement 3 have been recorded as deferred contract costs on the interim consolidated statements of financial position in the amount of $1,047 as at June 30, 2022 (March 31, 2022 - $1,047).

The amount of the upfront payments for all licenses is included on the consolidated statements of financial position as deferred revenue and will be recorded through the consolidated statements of loss and comprehensive loss at the same point when the license revenue is recognized.

18. COMMITMENTS AND CONTINGENCIES

Royalty agreement –

On November 16, 2015, the Company announced the signing of an exclusive long-term license and distribution agreement with Knight Therapeutics Inc. (“Knight”), a leading Canadian specialty pharmaceutical company, for the Company’s anti-inflammatory and pain drugs, otenaproxesul, ATB-352 and ATB-340, as well as the rights to other, future prescription drugs. Under the terms of the license agreement, the Company has granted Knight the exclusive commercial rights for the Company’s drug candidates and other future prescription drugs in Canada, Israel, Russia and sub-Saharan Africa. The Company is entitled to royalties on annual sales, along with the potential for $10 million in payments for sales-based milestones.

The Company received no royalties from Knight in the three months ended June 30, 2022.

In the normal course of business, the Company could be the subject of litigation or other potential claims. While management assesses the merits of each lawsuit and defends itself accordingly, the Company may be required to incur significant expenses or devote significant resources to defending itself against litigation.
